

# Standard

## Based Grading

At Summit, we hold our students to high, yet achievable standards. Here is our grading scale and what earning each grade means.

Here is our grading scale and what earning each grade means.

**4**

The student has exceeded the standard. The student also went above and beyond the assignment/task to further prove mastery!

**3**

The student meets this standard. The student knows how to do this skill independently.

**2**

The student is approaching this standard. The student can not do this skill independently, yet. However they are still learning and trying!

**1**

The student needs support in this standard. The student does not understand this skill, yet. Even when an adult helps, they need more time to put it all together.
