Please note: The final step of the enrollment process requires an Enrollment Agreement to be signed by the parents, guardians or sponsors of the student. This Enrollment Agreement applies to the entire school year, unless a student enrolls after the start date of school, in which case the Enrollment Agreement applies to the first enrolled day of school and lasts for the duration of the school year. Overhead expenses of the school, including teacher salaries, do not diminish with the departure of one or more students during the course of a school term. Therefore, tuition and all associated fees will be required to be paid in full for the entire school term ending on or about May 31, 2026. The tuition shall be due and payable even if the student is prematurely disenrolled, except under the limited exceptions noted in the enrollment agreement.
